PROFESSIONAL SUMMARY

Motivated and detail-oriented Software Engineering graduate from Murang'a University of Technology with practical experience in software development, ICT support, and modern web technologies. Skilled in designing and developing scalable web applications using React, Node.js, Django, JavaScript, and Python. Passionate about artificial intelligence, machine learning, networking, and solving real-world problems through innovative software solutions. A collaborative team player with strong analytical, problem-solving, and communication skills, eager to contribute to dynamic technology teams.

TECHNICAL SKILLS

Programming Languages

- JavaScript (ES6+)
- Python
- Java
- HTML5
- CSS3
- SQL

Frontend Development

- React.js
- Vite
- HTML5

- CSS3
- Bootstrap
- Tailwind CSS

Backend Development

- Node.js
- Express.js
- Django
- REST API Development

Databases

- MySQL
- PostgreSQL
- SQLite

Networking & Systems

- TCP/IP Networking
- Network Addressing & Subnetting
- Router & Switch Configuration
- Network Troubleshooting
- Network Security Fundamentals
- Windows & Linux Operating Systems

Developer Tools

- Git & GitHub
- VS Code
- Figma
- Postman
- XAMPP
- Microsoft Office Suite
- Version Control
- System Analysis & Design
- UI/UX Design

EDUCATION

Murang'a University of Technology

Bachelor of Science in Software Engineering
2022 – 2026

Relevant Coursework

- Software Engineering
- Database Systems
- Artificial Intelligence
- Machine Learning
- Data Structures & Algorithms
- Human Computer Interaction
- Mobile Application Development
- Web Development
- Operating Systems

St. Mary's Kibabii Boys High School

KCSE (Grade B+)

2017 – 2021

New Hill Academy

KCPE

2006 – 2016

PROFESSIONAL EXPERIENCE

Industrial Attachment

East African School of Aviation (EASA)

2025

- Assisted in ICT support and technical operations.
- Performed computer system maintenance and troubleshooting.
- Installed and configured software applications.
- Assisted users in resolving technical issues.
- Worked with organizational IT infrastructure and networking equipment.
- Gained practical experience working within a professional ICT environment.

Software Development Intern

Vihiga Women in Business

June 2024 – August 2024

- Assisted in developing responsive web applications.
- Participated in software testing and debugging.
- Collaborated with developers using Agile methodologies.
- Used Git and GitHub for version control.
- Improved application performance through debugging and optimization.
- Participated in project documentation and quality assurance activities.

PROJECTS

Machine Learning Crowdsourcing Platform for Automated Reporting and Prioritization of Urban Infrastructure Issues

Final Year Project

Technologies:

React.js • Django • Node.js • JavaScript • Python • Scikit-learn • MySQL

Key Features

- User authentication and role management
- Infrastructure issue reporting
- Image upload
- GPS location tagging
- Machine learning-based issue classification
- Intelligent issue prioritization
- Administrative dashboard
- Report management and analytics

School Management System

Technologies:

React.js • Node.js • MySQL • Vite

Features

- Student management
- Dashboard
- Examination management
- Finance management
- Timetable management
- Responsive user interface

CERTIFICATIONS

Cisco Networking Academy

- **Network Support and Security** — Issued April 2025
- **Network Addressing and Basic Troubleshooting** — Issued April 2025
- **Networking Basics** — Issued March 2025
- **Networking Devices and Initial Configuration** — Issued January 2025
- **Operating Systems Basics** — Issued March 2023

CORE COMPETENCIES

- Full Stack Web Development
- Software Engineering
- Artificial Intelligence
- Machine Learning
- Database Design
- REST API Development
- Networking Fundamentals
- ICT Support
- Problem Solving
- Analytical Thinking
- Team Collaboration
- Project Management
- Effective Communication
- Adaptability
- Time Management

ACHIEVEMENTS

- Successfully completed Industrial Attachment at East African School of Aviation.
- Earned multiple Cisco Networking Academy certifications.
- Developed several academic software projects using modern technologies.
- Experienced using Agile software development methodologies.

LANGUAGES

- English (Fluent)
- Kiswahili (Fluent)

INTERESTS

- Software Engineering
- Artificial Intelligence
- Machine Learning
- Open Source Development
- Networking Technologies
- UI/UX Design
- Reading Technology Articles
- Emerging Technologies

REFEREE

Dr. Annah Maragia

Assistant Registrar

East African School of Aviation (EASA)
